

# Land & Coastal SERVICES

## PROJECT DESCRIPTION

### MA Division of Ecological Restoration

Boston, Massachusetts

Land & Coastal provided support to ICF Consulting for restoration ecology in a study for the MA Division of Ecological Restoration to Evaluate the Ecosystem Service Benefits from Ecological Restoration Projects.

These projects included an Economic Analysis for Improving Water Quality in the Muddy Creek Watershed, in the Towns of Harwich and Chatham and an analysis to measure the monetary benefit of additional carbon sequestration from two wetland restoration projects in Quincy and Hingham, MA.
