

## Land & Coastal SERVICES

### PROJECT DESCRIPTION

## Providence Water Supply Board Limnological Assessments

Providence, Rhode Island

Land & Coastal Services is working with the ESS Group, Inc. on limnological assessments for the Providence Water Supply Board in three reservoirs, including Westconnaug Reservoir, Barden Reservoir and Moswansicut Reservoir.

Land & Coastal Service's staff assisted with bathymetric surveys, aquatic macrophyte surveys to create a species list and identify potential infestations of invasive weed growth and collection of in-situ water quality parameters, including temperature, dissolved oxygen, pH, color, turbidity, and specific conductance.
